

2023 Speak Up Campaign | 30" Radio (Re-leveraging 2021 scripts)

Script & Audio:

An incident on a worksite can be tragic.
But most can be avoided.

If you see something that isn't safe onsite and are worried about raising it, you can stand up and speak up anonymously, using the Speak Up Save Lives app.

It's a safe way to raise your concerns, to help protect you and your mates.

Download the Speak Up Save Lives app today.
You could help save a life.
